

WRITING ASSESSMENT
Write your final composition here.

We do a lot of enjoyable activities at school. We have dances, talent shows, and basketball games, but people like me only enjoy one of them, which are talent shows. They are fun. Everyone gets a chance to show off a special talent. Most likely, we get out of class early.

Although, talent shows are fun, they're enjoyable in many ways. We get to applaud people who we think are good. We also get to tease others that we think are bad. We bestly give support to our close friends, which makes the show ever better.

Secondly, we see everyone's talent. People sing, dance, read book, and say poems. Some people even do the most wildest backbens ever. Most people sometime do the unthinkable, put their legs over their heads.

Last but not least, we get out of class early. We want have to do work. Nobody will have to take test. We want even have any homework. Mostly, we want have to stand up and read to the 7th grade class.

In conclusion, there are lots of activites that I enjoy at school, but my favorite are talent shows.
